

Associate of Applied Science Business *Specialization: Game Technology*

Ever spent time playing video games when you should be doing homework? Why not turn your passion for video games into a challenging and profitable future! The video game industry generates revenues in excess of \$10 billion each year and continues to grow. The U.S. Army alone plans to invest \$100 million in training games and simulations over the next two to three years.

At Mesa Community College (MCC), our **Associate of Applied Science** degree in Business with a specialization in **Game Technology** is designed to give you the competency, tools, and capabilities necessary to cash in on a booming market where exciting new jobs are created every day!

Why Our Associate Degree?

- The range of career opportunities available in video game technologies continues to grow!
- You'll learn how to work with others, communicate effectively, and develop traits such as initiative and a desire to attain goals, two of the qualities that are valuable requirements in today's dynamic game building organizations!
- You will acquire the ability to solve complex problems using creativity, quantitative analysis, and a keen understanding of technology dependent relationships!
- Day, evening, and online course offerings are available!
- Enhances your transfer capability to Arizona State University, University of Arizona, and Northern Arizona University.
- Ready to get started? **Turn this card over** for detailed course scheduling information.

Why Mesa Community College?

- As the largest member of the ten-college Maricopa County Community College District, MCC is noted for a 40-year history of delivering competency-based education with nationally recognized achievement outcomes.
- Our Business Department delivers Associate Degrees and Certificates of Completion in more than 22 specialized academic disciplines. Our students can choose from degrees or certificates specializing in management, marketing, project management, small business management, international business, e-commerce, web technology, web design, computer information systems, or administrative office career areas.
- Our instructors are proven certified professionals with substantive real-world experience.
- A cost effective education opportunity when compared to the public / private university alternatives
- MCC works closely with our business and industry partners to design specific educational programs that upgrade employee skills and support those who are re-entering the workforce or changing careers.
