

Associate of Applied Science Business

Specialization: Management Information Systems

The demand for excellence in information management is greater now than ever before. Outstanding managers with solid information technology credentials are the most sought after professionals today. Did you know that Forbes ranks Computer & Information Systems Manager jobs as the 19th best paying jobs in America?

At Mesa Community College (MCC), our **Associate of Applied Science** degree in Business with a specialization in **Management Information Systems** is designed to give you the competency, tools, and capabilities necessary to successfully meet the demanding and dynamically changing role of today's management information systems.

Why Our Associate Degree?

- Few fields can match the overall importance of opportunities found in Management Information Systems
- You'll learn how to work with others, communicate effectively, and develop skill traits that are most valuable in today's technology dependent organizations
- You will acquire the ability to solve complex problems using creativity, quantitative analysis, and a keen understanding of the I.T. / organizational relationship
- Day, evening, and online course offerings available
- Enhances your transfer capability to Arizona State University, University of Arizona, and Northern Arizona University.
- Ready to get started? Turn this card over for detailed course scheduling information.

Why Mesa Community College?

- As the largest member of the ten-college Maricopa County Community College District, MCC is noted for a 40-year history of delivering competency-based education with nationally recognized achievement outcomes.
- Our Business Department delivers eight different Associate Degrees and Certificates of Completion in more than 22 specialized academic disciplines. Our students can choose from degrees or certificates specializing in management, marketing, project management, small business management, international business, e-commerce, web technology, web design, computer information systems, or administrative office career areas.
- Our instructors are proven certified professionals with substantive real-world experience.
- A cost effective education opportunity when compared to the public / private university alternatives
- MCC works closely with our business and industry partners to design specific educational programs that upgrade employee skills and support those who are re-entering the workforce or changing careers.
