

Associate of Applied Science

Organizational Management

Emphasis: Community Health Management / Diabetes

As the Nation's population continues to focus on improving individual health, the demand for competent & knowledgeable community health managers with training in diabetes management will continue to increase. Health care will generate 3 million new wage and salary jobs between 2006 and 2016, more than any other industry. Seven of the twenty fastest growing occupations are health care related. Do you have what it takes to fill the need for community health professionals?

At Mesa Community College (MCC), our **Associate of Applied Science** degree in Organizational Management with an emphasis in **Community Health / Diabetes Management** is designed to give you the competency, tools, and capabilities necessary to successfully meet the need for competent and skilled managers in community health settings focused on diabetes!

Why Our Associate Degree?

- Few fields can match the range of diversity and fulfillment found in assisting clients to achieve their optimal level of physical functioning.
- You'll learn how to work with others, communicate effectively, and develop traits such as initiative and outcome orientation, two of the qualities that are valuable requirements in today's community health managers.
- You will acquire a keen understanding of the endless challenges for individuals diagnosed with diabetes and acquire skills that are required to be successful as a health manager, in diabetes-focused, community settings.
- Day, evening, and online course offerings available
- Enhances your transfer capability to Arizona State University, University of Arizona, and Northern Arizona University.
- Ready to get started? **Turn this card over** for detailed course scheduling information.

Why Mesa Community College?

- As the largest member of the ten-college Maricopa County Community College District, MCC is noted for a 40-year history of delivering competency-based education with nationally recognized achievement outcomes.
- Our Business Department delivers Associate Degrees and Certificates of Completion in more than 22 specialized academic disciplines. Our students can choose from degrees or certificates specializing in management, marketing, project management, small business management, international business, e-commerce, web technology, web design, computer information systems, or a variety of organizational management career areas.
- Our instructors are proven certified professionals with substantive real-world experience.
- A cost effective education opportunity when compared to the public / private university alternatives
- MCC works closely with our business and industry partners to design specific educational programs that upgrade employee skills and support those who are re-entering the workforce or changing careers.
