AGEC, Degree, and Certificate Information

AGEC - Arizona General Education Curriculum is a 35-semester credit block of lower division general education courses for students transferring to any Arizona public university. Certified completion of the block provides for exemption from Arizona university admission requirements for students who complete the AGEC with a minimum 2.0 on a 4.0=A scale (for Arizona residents) and a minimum 2.5 on a 4.0=A scale (for non-residents) and will fulfill all lower division general education requirements for the majors with which they articulate. There are three types of AGEC blocks: AGEC-A, intended for many liberal arts majors and others; AGEC-B, intended for business majors; and AGEC-S, intended for majors with more prescriptive mathematics and mathematics-based science requirements.

AA - Associate in Arts Degree includes AGEC-A and transfers as a block without loss of credit to Arizona's public universities. There are two pathways: The AA-GR(General Requirements) and the AA-SR (Special Requirements) are designed for students who plan to transfer to Arizona's public universities into majors that articulate with the AA-GR or AA-SR pathways. All semester credits used to satisfy the MCCD Associate in Arts pathways will apply to university graduation requirements of the university major for which the pathway was designed.

AA - TPD - Associate in Transfer Partnership Degree is an articulated academic program of study established among the student, the accredited baccalaureate degree-granting institution selected by the student, and the primary Maricopa Community College the student attends. The program of study will "parallel" the student's four-year degree as designated by the baccalaureate degree-granting institution.

AS - Associate in Science includes AGEC-S and transfers as a block without loss of credit to Arizona's public universities and will satisfy requirements in majors with more stringent mathematics and mathematics-based science requirements. There are two pathways: The AS-GR(General Requirements) and the AS-SR (Special Requirements) are designed for students who plan to transfer to Arizona's public universities into majors that articulate with the AS-GR or AA-SR pathways. All semester credits used to satisfy the MCCD Associate in Science pathways will apply to university graduation requirements of the university major for which the pathway was designed.

ABUS - Associate in Business includes AGEC-B and transfers as a block without loss of credit to Arizona's public universities. There are two pathways: The ABUS-GR (General Requirements) and ABUS-SR (Special Reqirements) are designed for students who plan to transfer to Arizona's public universities into majors that articulate with the ABUS-GR or ABUS-SR pathways. All business majors except Accountancy and Computer Information Systems should follow the ABUS-GR pathway. Computer Information System majors should folow the ABUS-SR pathway. All semester credits used to satisfy the MCCD Associate in Business pathways will apply to university graduation requirements of the university major for which the pathway was designed.

AGS - Associate in General Studies Degree - For students whose educational goals require flexibility or who choose to take courses which may later apply toward a degree.

AAS - Associate in Applied Science Degree - For students who plan to complete a specified occupational program.

CCL - Certificate of Completion - For students who plan to complete an occupational program requiring fewer credit units than a degree.
